SOCIOLoGY 88: Data Science for Social Impact
Spring 2020
Thursdays 10-noon, Evans 4

Instructor: David Harding, dharding@berkeley.edu
Office Hours: Wednesdays 9-11 (sign-up: https://tinyurl.com/hardingOH)
or by appointment

Data Science Connector Assistant: Ashley Quiterio, ashleyquiterio@berkeley.edu
Office Hours: Mondays 12:15-1:45, 3rd Floor Moffitt Library (Data Science Peer Advisors)\footnote{After presenting your ID at the front desk, keep walking straight past the elevators, then turn right.}

Goals: This course explores the role of social research in policymaking and public decisions and develops skills for the communication of research findings and their implications in writing and through data visualization. Students will develop an understanding of various perspectives on the role that data and data analysts play in policymaking, learn how to write for a public audience about data, results, and implications, and learn how to create effective and engaging data visualizations.

Course Format: We will meet each week for two hours. How we will use this time will vary from week to week. During Part 1 of the course when we are learning about research and policy, we will mostly use our time for a seminar-style discussion. During Parts 2, 3, and 4 when we are learning more practical skills and working on projects, we will have brief lectures and do in-class lab exercises together.

Data Science Connector: This course builds on the Foundations of Data Science course (Data 8, formally COMPSCI C8 / INFO C8 / STAT C8) by teaching more advanced data visualization skills and techniques, by providing an understanding of how data is used, and by teaching how to communicate about data. Data 8 is a co-requisite. This means you must be currently taking Data 8 this semester or have taken it in the past to take Sociology 88.

Grading: Students will complete 5 assignments (50%) and a final project (30%). The remaining 20% of the grade is for participation, including responsible and effective participation in the final group project.

Course Policies

Readings
Students will be responsible for both material in the readings and material covered in class. I will post slides on the bCourses site. However, these slides are designed to be rhetorical aids and not comprehensive records of all that was said in class. Please do all
of the readings. It will be difficult to participate in class discussions and if you have not
done the readings.

**Accommodation**
I will provide accommodation to any student who provides me with a written letter from
a DSP Specialist. If you require accommodation, the first step is to have DSP send me an
official written accommodation letter. Once I receive this letter and if I have any
questions, I will contact you by email. Please arrange for me to receive the letter as early
in the semester as possible. I will also provide accommodation for observation of
religious rituals and for university athletic events. University policy is that such requests
should be made by the second week of the semester. Please submit them by email and
also remind me again as the date approaches. Further information is available at the
Academic Accommodations Hub website.

**Late Work**
Assignments turned in late will be penalized one letter grade for every day late (e.g. one
day late makes a B a C). If you have a real emergency, email the Professor about it at
least 24 hours before the deadline.

**Grading Policy**
If you wish to contest a grade, please outline in writing via email (1) what assignment
you are contesting, (2) the grade you received on the assignment, and (3) the reason(s)
why you believe the grade you received is unfair. Whatever the outcome, the score from
the re-grade will be final. The grade appeals process should be initiated within seven days
of receiving the grade in question.

**Academic Honesty**
The UC Berkeley Honor Code states that, “As a member of the UC Berkeley community,
I act with honesty, integrity, and respect for others.”
([https://teaching.berkeley.edu/berkeley-honor-code](https://teaching.berkeley.edu/berkeley-honor-code)) I expect that you will adhere to these
principles in your conduct in the course. You may not copy specific text or ideas from
others, whether from fellow students, from authors of our readings, or from authors of
material you find on the internet, without specific attribution. To do otherwise is to
plagiarize. You may of course discuss the lectures and readings with your fellow
students, but he assignments must reflect your own independent work. Violations of these
rules will result in a failing grade on the assignment and possibly on the course and may
result in you being reported to University authorities.

**Email**
Email should not be used for substantive questions about the reading or course materials.
Please ask such questions in class or sign-up for office hours. I will endeavor to respond
to other email messages within 24 hours. Please wait 24 hours before emailing me a
second time about the same issue.

**Office Hours**
I very much encourage you to sign-up for office hours. You may also just “stop-by” my office during office hours, and if I don’t have another student scheduled, I’ll be happy to talk with you. Office hours are a good time to just introduce yourself, to talk about ideas that you find particularly engaging or difficult, or to discuss problems that you may be having in the course.

**Technology Policy**
You are encouraged to use a laptop or tablet during class for the purpose of note taking, coding, or consulting the readings. Beginning in week 8, we will be using Jupyter Notebooks in class and for assignments. Please do not use your cell phone during class. Please do not text, chat, surf the web, read the news, or watch videos during class! This behavior is distracting to other students sitting around you.

**Piazza**
We will use the online tool Piazza for posting and answering questions in the course. See our piazza page here: [https://piazza.com/berkeley/spring2020/soc88/home](https://piazza.com/berkeley/spring2020/soc88/home)

---

**Course Outline**

**Part 1: Research and Policy**

*Goal*: Understand the various ways in which research is used in policymaking and the role of the researcher in policy development

**Week 1** (Jan. 23): Introduction

**Week 2** (Jan. 30): Research and Policymaking

**Week 3** (Feb. 6): Field Theory: Actors, Power, Ruptures, and Settlements

**Week 4** (Feb. 13): Critical Approaches and Engaged Research

Assignment #1: Short Paper, Approaches to Research and Policy, Due Feb. 19, 5pm

Part 2: Writing for a Policy Audience
Goal: Develop skills in writing for a policy audience

Week 5 (Feb. 20): Introduction to Writing for a Policy Audience

Week 6 (Feb. 27): Case Study 1: The policy brief

Sara Wakefeld and Christopher Wildeman, 2018, How Parental Incarceration Harms Children and What to Do About It.

Laura Ridolfi and Tracy Benson, 2016, Decriminalizing Childhood for Youth of Color https://drive.google.com/file/d/0B5OY2mjuvIznSDhsTkU2LVV3SkU/view

Assignment #2: Policy Brief, Due March 4, 5pm

Week 7 (March 5): Case Study 2: The Op-Ed

Part 3: Creating Effective Visualizations
Goal: Develop skills in data visualization in Python

Week 8 (March 12): Charts and Graphs, Coding basic visualizations

(Required Sections: 1-7, 10-12, 14, 29; Optional Sections: 17-26)

Assignment #3: Op-Ed, Due March 18, 5pm (NOTE NEW DATE)

Week 9 (March 19): Principles of Effective Data Visualization

Tableau. Visual Analysis Best Practices: Simple Techniques for Making Every Data Visualization Useful and Beautiful

*** no class March 26 – Spring Break ***

Assignment #4: Data Visualization 1, Due April 1, 5pm

Week 10 (April 2): Mapping Part A

Week 11 (April 9): Mapping Part B

Assignment #5: Data Visualization 2, Due April 15, 5pm
Part 4: Student Projects

Goal: Students will bring together the knowledge they have learned in Parts 1-3 and their knowledge of data analysis from Data8 to conduct an analysis, visualize results, and convey their importance to a non-technical audience.

Weeks 12-14 (April 16, 23, 30): Individual Meetings and Lab Sessions; students work on final projects and share working drafts.

On April 23, instructors from the Adobe Fellows program will provide a workshop in class on using Adobe Premiere Rush to make short online videos.

Final Project Due Friday May 8, 5pm
