Course Description:

This course is an introduction to urban sociology that frames cities as physical spaces that magnify social inequalities and shape how we experience them in our daily lives. We may all live in the Bay Area, but our daily experiences of place are often radically different within short distances. We may experience the same public and private spaces differently as well. In this class, we will explore why this is—how our experiences of the city vary so widely depending on where and who we are—and how where we live and conduct our lives shapes other aspects them. We will explore these topics by mostly focusing on the urban space common to us—the Bay Area. We will use the Bay Area, and the East Bay and San Francisco in particular as lenses through which we can gain a national perspective on urban issues. We begin the course by considering the historical forces that shaped the Bay Area into the region it is today, and how that history continues to shape and inform current urban experiences and controversies. The later part of the course focuses on how neighborhoods influence life chances, social interactions in urban spaces, and topics typically considered as urban problems—homelessness and neighborhood violence. Throughout the course we will consider the relationships between spatial organization, social inequalities and social interaction.

The central questions we will address in this course are:

- How did our present urban social and spatial dynamics come to be?
- What are current trends in urban areas?
- What were/are important influences on these processes, and how are current trends related to the history of urban areas and places?
- How does the spatial organization of urban areas influence social interaction, both in general and in specific urban places?

By taking this course, you will:

- ◆Learn how economic forces and social structures such as race, class, government policies and citizen activism influence how cities are socially and spatially organized, and how that has changed over time.
- ◆Learn about how urban living shapes social interaction, past and present by focusing on specific examples in urban places in the Bay Area, Los Angeles and Philadelphia.

- ◆ Gain some experience with conducting and writing up ethnographic field research, using and applying census and other data in sociological analysis, and practicing your writing skills.

Required Readings:

All readings this semester can be found on bCourses. For your convenience and ease in studying, you may purchase the course reader containing the assigned book chapters from the Copy Central store on Telegraph. The readings that are freely available through the library or other online sources are not in the course reader, but are available on bCourses or through the links on the syllabus. Find the readings on bCourses under the “files” tab.

Films: We watch several films (or excerpts) in class over the course of the semester to provide examples of concepts from lecture and readings, and to explore some topics in more detail. You should think of the films as “required” course materials; if you miss one, you should watch it at the media center in Moffitt Library. Some, but not all, films may be available for streaming either via the library’s film services, youtube or on Kanopy (a streaming service you can access through the library website)— availability is subject to change. If you miss a film, it is your responsibility to find out what you missed, and how you can view it.

Evaluation:

Take-home Exam: 20% of grade, (200 points), Feb. 20th, due 2:00 pm to bCourses

Neighborhood Profile Paper: 25% of grade, (250 points), Mar. 17th, due 5:00 pm to bCourses

East Bay Cosmopolitan Canopy Project:

- Field Notes: 5% of grade (50 points), due as an assignment AND discussion on bCourses by midnight, Apr. 6th
- Paper: 20% of grade (200 points), May 1st, due to bCourses at 5 pm.

Take Home Final Exam: 20% of grade, (200 points), May 14th due to bCourses at 6 pm.

Participation and Attendance: 10% of grade, (100 points), ongoing over the semester

Exams and Assignments:

Detailed prompts and information about the two paper assignments are posted on bCourses. Please read these now so you know what is required.

Take-Home Midterm Exam: This will be an essay exam based on readings and lectures covered so far. Questions will be posted on bCourses one week before the exam is due. We will not have lecture on the day the exam is due. **Submit an electronic copy to bCourses.**

Neighborhood Profile Paper: The first paper will consist of a description of a Bay Area neighborhood based on your own ethnographic observations, Census data, and other sources, along with some analysis that requires you to apply concepts from course readings to your findings. You will choose from neighborhood possibilities listed on the assignment prompt. **Submit an electronic copy to bCourses.**

East Bay Cosmopolitan Canopy Fieldnotes and Paper: The second paper, The East Bay Cosmopolitan Canopy Paper, will explore Anderson's concept of the "cosmopolitan canopy"—contemporary urban places where people from diverse socioeconomic backgrounds interact. Students will analyze their own and other students' ethnographic field notes in order to study the same site in East Bay. This paper will be written in the format of a research paper. There are two parts of this assignment—the timely completion and posting of field notes, and the paper. **Submit both to bCourses. You must post the field notes as a “discussion” AND as an “assignment” on bCourses—this will allow your classmates to have access to your notes—to ensure full credit for this portion of the assignment.**

Final Exam: This will be a take-home essay exam, very similar in format to the midterm. You will be provided with the questions one week in advance of the due date. Questions will focus on the material after the first exam, but may ask you to incorporate material from throughout the course. **Submit your exam to bCourses.**

Participation: Your participation grade will consist of a combination of points you will receive for reading quizzes announced in class to be taken on bCourses within 24 hours, periodic attendance checks, other short in-class activities, and, possible alternative assignments if needed in lieu of lecture. I will drop one point from the total before calculating final participation grades and there will be opportunities available to make up missing participation points and/or earn a small amount of extra credit to be added to your final course grade at the end of the semester.

Grading: Most of the grading will be done by the graduate student reader assigned to our course, in close collaboration with me. We will try to return exams and papers to you within two weeks. We will be available to discuss your assignments with you after they are returned, either during office hours or by appointment. If you believe a mistake was made in grading your assignment, you may request a re-grade. *If you ask for a re-evaluation of your work, be prepared to make a specific argument in writing as to why you think you deserve more points*, making sure to reference the rubric or answer key for the assignment in question. Please consider these requests carefully, as a re-grade will subject your work to closer scrutiny and your grade could possibly go down as a result. Re-grade requests for a particular assignment must be made within two weeks of when the assignment was returned. Please note that per university policy, re-grades are not possible on final exams.

Course Policies:

Students are responsible for all material covered in lecture, including announcements. You will be expected to integrate materials from lecture and readings on exams and papers. Please do not enroll in this class if you will not be able to attend the lectures regularly.

Official **accommodations** are provided for students with a DSP letter, who are on a university athletic team and for the observance of religious holidays. Please email or speak with me to discuss specific arrangements as soon as possible before an assignment is due. If you do not have a formal right to accommodations, but are experiencing difficulties that are affecting your academic performance, please let me know about it so we can work together to ensure your success in the class.

Exams and assignments must be taken and turned in on time in order to receive full credit. If you have a personal emergency or are ill you need to contact me at the earliest opportunity to discuss alternative arrangements. Unexcused late assignments will be penalized one third of a grade for each day they are late (including weekends) beginning shortly after an assignment is due. Check due dates and times carefully to avoid problems.

Make sure to check that the file you have submitted to bCourses is the correct one for the assignment in question and in a format we can read. Documents must be submitted as MS word or PDF documents. Failure to do this may result in points lost and delays in grading.

Incomplete Grades: Incompletes are an option of last resort for students experiencing true medical or other emergencies that make it impossible for them to complete their coursework on time. To be considered for an incomplete grade, students need to speak with me about it DURING the semester, have completed about half of the coursework, and provide documentation of the reason for the request.

Academic honesty is expected of all students. It is extremely important that students turn in their own work. Suspected violations relating to this course will be reported to the Office of Student Conduct and dealt with according to university policies. *Be aware of plagiarism and self-plagiarism.* Word for word use of even a single sentence from any author, publication or website without proper citation is plagiarism and is unethical. All work submitted for credit for this class must be original and created specifically for a particular exam or assignment. Plagiarism will result in a failing grade on the paper or exam with no opportunity to rewrite, as will any other kind of cheating. If you have questions about how to properly cite materials, or how to paraphrase appropriately, ask during office hours, or consult Ch. 6 of the writing guide “Writing for Sociology”, available on the Soc. department website and on our class bCourses site. To discourage plagiarism, I check student work with Turnitin (the plagiarism detection tool on bCourses). This will happen automatically when you turn in assignments on bCourses.

Email: Make sure to check the course syllabus and announcements before emailing me about an assignment or administrative matter. It is best to ask questions about these things before or after class or during office hours. Please understand that I receive many emails from students and am not always able to respond right away. Do not expect a response after working hours or on weekends.

Office Hours: Tuesdays, drop-in from 2:15-3:00 pm. Thursdays, 2:15-4:15 by appointment. Please come by to talk with me sometime during the semester, just to say “hi” and especially if you are having trouble with the course. I want you to do well, but I can’t help if I don’t know what is going on. **Please sign up for office hours appointments on this sign-up sheet (<https://www.wejoinin.com/sheets/uzaly>).** My office is shared, so if you need to speak with me confidentially, please try to let me know ahead of time so I can try to ensure privacy. If you cannot make these office hour times, please contact me and we can try to find another time.

Laptops, etc.: Did you know that taking handwritten notes during lecture and section may improve your grade in this class? If you want to use a laptop or tablet to take notes, please sit towards the back of the classroom so you do not distract others. Please put your phone away during class.

Lecture Slides: Lecture slides will be available on bCourses after class. Slides are for your reference as a study aid and are not a substitute for attending lecture.

Your Health and Well-Being: Being a college student at Berkeley can be full of excitement and possibilities, but at times may feel overwhelming or be difficult in other ways. Some degree of this is to be expected, but if you are experiencing a lot of distress, anxiety or have a pre-existing mental health issue, there are resources on campus to help. You are not alone; many others share your difficulties. Even if you don’t think you need them, I encourage you to look at these websites, so you know what is available: counseling appointments, web tutorials and videos, support groups, mindfulness classes and more. These groups and classes can be a great resource for self-care and are a great way to get the semester off to a good start. Counseling and Psychological Services (CAPS), (510) 642-9494, <https://uhs.berkeley.edu/counseling>. More general resources on mental health, services are at <https://uhs.berkeley.edu/health-topics/mental-health> .

Notes and Circulation of Course Materials: DO NOT reproduce course materials or and post them on-line or anywhere else. This includes the syllabus, lecture slides, your notes, handouts, assignments, rubrics and exams. Do not record my lectures without explicit consent from me. While you may share your notes with other students in this semester’s class, it is against university policy to share your notes broadly, or attempt to use them for commercial purposes. It is also a violation of the policy to record lectures without my consent, and/or try to use recordings for commercial purposes. Please see <http://campuspol.chance.berkeley.edu/policies/coursenotes.pdf> for a detailed version of the policy.
